05	ABOUT AZIMUT	P49

A one-of-a-kind beauty, enrapturing,
that steals your breath away, leaving you
speechless. An extraordinary idea as the only
possible pathway, to get to where you want,
to explore, to go beyond.
The freedom of embracing the unknown, that
you know you'll love as a part of your very own
story. A thought that provokes your mind and
then inspires you to aim for the impossible,
making mistakes, yet being brave.
A magic je ne sais quoi that enchants and
intrigues you, moving you to feel more and to
sense uniqueness.

The choice to risk it all, the one that makes you
go for it, to impress yourself and all those who
are worth it.

Welcome to Azimut.

AZIMUT.
DARE TO AMAZE.

THE DESIGN & LIFESTYLE ON BOARD

S10, A POWERFUL SPIRIT IN EVOLUTION

Through revolutionary design and extra-curated technology, the Azimut S10 flagship further empowers the ideal of superior sporting performance embodied by the S Series and represents its most evolved stylistic personality. Concocting visual and living extravagance, refined and contemporary lines unite with a layout that looks to spectacular discoveries, from the infinity open-air terrace created to embrace the full beauty of the sea by day and by night, to the more reserved areas insinuating intimacy.

Breathe in the innovative imagination of S10.

Welcome aboard, ladies and gentlemen.

Let us begin the tour.

PURE POSSIBILITY

Inspired by the terraces of a villa in Malibu, Alberto Mancini has designed a sport yacht that offers unparalleled contact with the sea. Wrapped in elegant lines, the Grande S10 is sharpened by a sporty stance and windswept features. The carbon fiber accented arrow-like silhouette only hints at her exhilarating performance.

THE WONDER OF VISIONARY THINKING

Inspired by the most fascinating villas in Malibu, the stern features an infinity terrace, completely open to the air and the sun.

AT ONE WITH THE SEA

The traditional beach is joined by a second, slightly more sheltered level, overlooking the sea. Every level of proximity to the water's edge is a unique sensation, so the stern's smooth transition is able to offer a uniquely complete experience.

SERENE SECLUSION

The innovative layout creates a private patio, positioned more reservedly, in which to relax and enjoy the sheltered al fresco environment. Teak, steel and exposed carbon recall the modern and performant style of the yacht.

The flybridge is a wide open deck for exhilarating navigation and open air living. There is a lounge aside the helm, in addition to sofa seating, transforming tables and a stocked bar cabinet. All the furnishings keep a low profile in line with the sportfly concept.

LET THE BEAUTY SURROUND YOU

The sweeping lounge at the bow invites a full complement of guests to spend the day outdoors, among comfortable sunpads and sofas.

[Handrail cappings echo the sense of grand style at the core of the yacht's design language.]

THE CHARM OF MODERNITY

BLENDED BOUNDARIES

The entire main deck is reserved for living and lounging, to gather more than a full host of guests in revelry. A play of doors, hide-away partitions and opening windows creates perfect continuity between the inside and outside. The dining room can, as desired, join the outdoor patio for al fresco dining, or remain amidst the more traditional living room layout.

Now, let us discover the guest accommodations.

Shall we?

The master suite feels large, even with a generous offer of furnishings: a chaise lounge and a vanity desk, as well as plenty of personal storage.

COZY AT SEA

A modern and welcoming interior design characterizes the lower deck accommodations in consideration of terrestrial living standards.

LUMINOSITY AND ELEGANCE

THE ART OF HOSPITALITY

The guest staterooms include two VIP suites with queen-size beds and a fourth guest cabin, all characterized by the same tasteful décor.

[Light design elements combine the functional and the aesthetic LED lights to spotlight the steps to the stern swim platform and the vertebral stairway to the flybridge. When activated, they light up in a choreographed sequence, making a strong first impression.]

02

HER MAIN TECHNICAL FEATURES

The beauty of the S10 is not solely a matter of exterior and interior design elements that combine to perfectly play out Azimut's essence. Her beauty is also about discovering the technological advancements and special components that contribute to making her truly unique and highly innovative.

CARBON-TECH GENERATION

Azimut's pioneering use of carbon fiber lamination goes beyond pure performance. The Carbon Tech Generation offers expanded volumes on board, while maintaining excellent dynamic stability and perfect handling. Preserving the yacht's low center of gravity, the carbon fiber was focused on the upper parts of the yacht, lightening the laminated components by up to 30% and reducing the natural roll momentum up to 15%.

ADVANCED MONITORING SYSTEM

The bridge was produced in partnership with Simrad-Naviop and has a single ultra-wide screen displaying all the main monitoring and navigation information, a mix of video sources and clusters of content chosen using the commanders, or two touch screens duplicated by two physical joggers for extra redundancy and safety.

ACTIVE TRIM CONTROL

Automatic interceptors by Humphree gives the vessel the lift it needs to get up on plane faster or to reach that optimum running trim. In this way the resistance of the hull is automatically optimised for every speed and load condition, this resulting in increased speed and lower fuel consumption. The Humphree system is all electric powered by 12-24 Volt DC. Thanks to the design of the Interceptor it only requires a small amount of power to move the blade up and down, even under high speed operation.

ELECTRONIC POWER STEERING (EPS)

At the helm, the innovative Optimus Electronic Power Steering system by Seastar Solutions gives you a similar sensation to driving a top of the range car. The steering sensitivity and resistance can be linked to speed, enhancing the pilot's control in every situation. The system also has the additional benefit of eliminating the hydraulic piping between the helm station and the rudder compartment.

ACTIVE VENTILATION SYSTEM

The engine room features an Active Ventilation System that regulates fan rotation speed on the basis of temperature.

Please consult your dealer for the latest specifications.

UNI ISO 8666
The performance described applies to a vessel with standard configuration (standard equipment installed) and a clean hull, propellers, and rudder. It is also noted that the performance described was recorded under favourable sea and wind conditions (Beaufort scale index 1, Douglas scale index 1); different and worse sea conditions could significantly impact performance.

CE MARK
Given the continual evolution of technology, Azimut | Benetti S.p.A reserves the right to modify the technical specifications on its vessels at any time and without prior notice.

THE SERIES S

AVANT-GARDE INTELLIGENCE

The seductively sportive Azimut S Series is the market's pinnacle of technological advancement and performance. Sensually streamlined exteriors make for a fiercely dynamic aesthetic, combining with innovative propulsion systems and last generation hulls to deliver a uniquely sporty experience. Daringly fusing high speed and extreme manoeuvrability with the lowest consumption of fuel achievable in its class, the S Series also makes extensive use of carbon fiber on its yachts to grant vast volumes without impacting on weight, therefore offering unanticipated ample living spaces.

Embrace the beauty of avant-garde intelligence.

ABOUT AZIMUT

A FAMILY-MADE COMPANY CULTURE

An immense and personal passion for the sea. A clear and forward-facing attitude. A strong and relentless work ethic. Since 1969, Paolo Vitelli, the creative visionary founder and businessman behind Azimut, has been set on challenging the industry's status quo with a daring desire: bring to life an unexpected nautical experience, through yachts built to combine alluring aesthetics with construction expertise and impeccable technology.

An audacious mindset that has, over time, surprised and captivated the yachting sector, transforming Azimut into a bold and recognizable benchmark, and laying the foundation for the birth of the largest megayacht builder in the world, the Azimut | Benetti Group.

The international and management-based standing of the company today, is deeply nourished by the solid and memorable family heritage that has distinguished it from the beginning. A historically pioneering vision that enables it to continue thriving day after day, through ingenious inventions and long-term goals that look to the future with Paolo's daughter, Giovanna Vitelli.

A SUSTAINABLE VISION TODAY, FOR TOMORROW

An avant-garde vision and a strong emotional appeal have shaped the history of Azimut as a leader in the field of nautical innovation as well as its commitment to the creation of a sustainable-oriented and attentive company culture today.

An ambitious and personal touch that has allowed Azimut to grow and evolve on both levels, embracing the challenge of a future nurtured by an eco-conscious approach to boat construction and by an authentic focus and responsibility on human well-being.

OUR ECO-YACHTING PHILOSOPHY

The Azimut I Benetti Group has made tangible investments to guide the Technical as well as the R&D departments toward the construction of yachts with a diminished environmental impact. Its main areas of intervention have focused on significantly lowering fuel consumption and CO2 emissions through the development of highly efficient hull designs, innovative propulsion systems and an extensive use of carbon fiber to decrease yacht weight.

A SAFE AND HEALTHY WORK ENVIRONMENT

The forerunning shipyard of Avigliana was the first of the company's Italian shipyards to obtain the ISO 45001 certification in 2011, attesting its rigorous abidance to all occupational health and safety requirements. Recognized as the most technologically-advanced shipyard in Europe, it has also led the nautical sector revolution in terms of being among the earliest adopters of the vacuum infusion process to drive resin into a laminate, avoiding styrene emissions and therefore guaranteeing its precious workers a healthier setting.

As of 2013, all the other Italian production sites have adapted to meet the necessary requirements to obtain the ISO 45001 certification.

THE LARGEST PRIVATE GROUP IN THE YACHTING WORLD

Azimut is part of the Azimut | Benetti Group, the biggest private player and shipbuilder in the nautical sector today. The Vitelli family, the founder and majority shareholder of the company, has been leading the way for over fifty years now, continuing to innovate through the Group's main yacht brands, Azimut and Benetti, while developing a variety of service brands to cater to the different demands of ship owners worldwide.
