A one-of-a-kind beauty, enrapturing,
that steals your breath away, leaving you
speechless. An extraordinary idea as the only
possible pathway, to get to where you want,
to explore, to go beyond.

The freedom of embracing the unknown, that
you know you'll love as a part of your very own
story. A thought that provokes your mind and
then inspires you to aim for the impossible,
making mistakes, yet being brave.

A magic je ne sais quoi that enchants and
intrigues you, moving you to feel more and to
sense uniqueness.

The choice to risk it all, the one that makes you
go for it, to impress yourself and all those who
are worth it.

Welcome to Azimut.

AZIMUT.
DARE TO AMAZE.

THE DESIGN & LIFESTYLE ON BOARD

GRANDE 36M, AN OPEN SEA EXPERIENCE

With her original design and modern ethos, the Azimut Grande 36M is a superyacht that synthesizes cutting-edge style and attitude. From the unprecedented semi-walkaround upper deck inspiring freedom of movement to the fully retractable side windows posing a special gateway to the sea, all elements contribute to visually blend interior and exterior spaces. A barrierless lifestyle naturally blurs the boundaries between onboard pleasure and oceanic greatness.

Free your sea soul with the Grande 36M.

[The Grande 36M bears unexpectedly expansive glazed surfaces for a feeling of lightness inside and out.]

[Following the design cues from the Trideck, the Grade 36M is built on horizontal architecture with an enhanced perception of length.]

Welcome aboard, ladies and gentlemen.

Let us begin the tour.

SHE EXPRESSES STATE-OF-THE-ART MODERNITY

Designed by the skilled hand of Alberto Mancini, the Grande 36M is instantly recognizable by her elongated lines and clean surfaces. The exterior design matches the superyacht's substantial size with a sportive stance, aided in breaking up the volumes by the sculpture of the hull sides.

INFINITY SKYDECK, FLUSH FROM STERN TO BOW

With the Grande 36M, Azimut introduces the first semi-walkaround upper deck that runs flush from the stern to almost the extreme bow, offering unprecedented freedom of movement. The side windows are fully retractable, joining the skylounge with the aft terrace to create an immense barrierless area. Wrapping around to the bow, we come to a whirlpool tub made entirely of glass and a sunbathing area equipped with every comfort.

THE FREEDOM TO CHOOSE

Striving to realize her owner's dreams, the Grande 36M proposes unprecedented personalization at every level. Even the number of levels may be configured to have a sleek coupe or a sundeck as the cherry on top.

[The walls of the skylounge are made of glass and may be retracted with the push of a button, offering a rare combination of marine immersion and cosiness, while unifying the Infinity Skydeck into a single free-flowing floor.]

LAID OUT FOR LIFESTYLES

The size of the skylounge gives the freedom to appoint it according to the owner's lifestyle. Aside from the lounge cinema setup, it may be configured as the main indoor dining, therefore freeing up the fore part of the main deck to host a second, more secluded spot, named the Gentleman's Club.

A SPECTRUM OF SHELTER

The informal seating arrangement closest the skylounge is protected on the sides and from above, creating a recessed retreat from which to enjoy the fresh air without wind or weather.

KEEP YOUR FRIENDS CLOSE AND THE SEA CLOSER

With the tender and toys stored in a side garage, the Grande 36M dedicates the entire waterfront to relaxation. The transom platform folds down, simultaneously creating an substantial beach and revealing an amply appointed beach club, to offer unexpected comfort and closeness to the sea.

GRANDE 36M

AZIMUT YACHTS

The sundeck is particular among the outdoor spaces, offering every essential for hosting in an intimate setting, secluded by its altitude.

[The elevated panorama of the sundeck seems suspended in time, as well as the air.]

The cockpit blends the beach area together with the main deck, with sheltered, open air dining and an American bar.

A WELL-ROUNDED LOUNGE

The circular lounging island at the entry of the main deck proves that space is a luxury, taking thoughtful advantage of the furniture arrangement to provide clear views through full-height windows and separate pathways on either side; one for the guests and one for the crew.

[The flood of natural light pouring into the salon creates an unexpected visual effect, revealing subtle design elements and energizing the ambience.]

GRANDE 36M

AZIMUT YACHTS

AN INTEGRATED DINING EXPERIENCE

Between the 270-degree view onto the sea and the sculpted galley bulkhead, which artfully imitates waves, the dining arrangement observes nautical tradition with radical openness.

GRANDE 36M

AZIMUT YACHTS

Now, let us discover the guest accommodations.

Shall we?

A SANCTUARY OF LIGHT

The centrally set king-sized bed allows free movement throughout the main chamber, which is flanked by furniture arrangements. Behind the head of the bed, the entire bulkhead is dedicated to full-height wardrobes and a mirrored dressing area.

[Minimalist design and LED underlighting gives an impression of floating furniture and weightlessness.]

GRANDE 36M

AZIMUT YACHTS

YOUR PRIVATE SPA

The forward washroom extends to the glass-walled shower, opening up a refreshing annex with stone and reflective surfaces to fill with light.

GRANDE 36M

AZIMUT YACHTS

[The VIP staterooms offer a connected washroom and chaise lounges to enrich the space.]

RELAX AND UNWIND

Long stays on board are more comfortable below deck with large windows and plenty of personal storage.

[The raised pilot house has a commanding view over the clean and minimalist displays.
All auxiliary controls are hidden away within reach.]

02

HER MAIN TECHNICAL FEATURES

The beauty of the Grande 36M is not solely a matter of exterior and interior design elements that combine to perfectly play out Azimut's essence. Her beauty lies also in discovering the technological advancements and special components that contribute to making her truly unique and highly innovative.

LOW EMISSION YACHT

D2P DISPLACEMENT TO PLANING HULL

The high-efficiency D2P® Displacement-to-Planing hull, combined with the extensive use of carbon fiber, reduces fuel consumption and CO₂ emissions by 20 to 30%* at both slow and fast cruising speeds. The double chine hull comes to a wave piercer at the bow, minimizing the impact of sea conditions while increasing the waterline length and therefore reducing drag.

*compared to vessels of the same weight and size with a traditional hard-chine hull.

CARBON-TECH GENERATION

Azimut's pioneering use of carbon fiber lamination goes beyond pure performance. The Carbon-Tech Generation offers expanded volumes on board, while maintaining excellent dynamic stability and perfect handling. Preserving the yacht's low center of gravity, the carbon fiber was focused on the upper parts of the yacht, lightening the laminated components by up to 30% and reducing the natural roll momentum up to 15%.

AIR TREATMENT AND VENTILATION SYSTEM

The yacht is equipped with an UTA air extraction system, which continuously exchanges and purifies the air on board. Through the use of extractors and air handling units, the rooms benefit from a continuous flow of fresh, clean air from the outside, filtering out most undesirable particulates and odors.

Please consult your dealer for the latest specifications.

UNI ISO 8666
The performance described applies to a vessel with standard configuration (standard equipment installed) and a clean hull, propellers, and rudder. It is also noted that the performance described was recorded under favourable sea and wind conditions (Beaufort scale index 1, Douglas scale index 1); different and worse sea conditions could significantly impact performance.

CE MARK
Given the continual evolution of technology, Azimut | Benetti S.p.A reserves the right to modify the technical specifications on its vessels at any time and without prior notice.

ABOUT AZIMUT

A FAMILY-MADE COMPANY CULTURE

An immense and personal passion for the sea. A clear and forward-facing attitude. A strong and relentless work ethic. Since 1969, Paolo Vitelli, the creative visionary founder and businessman behind Azimut, has been set on challenging the industry's status quo with a daring desire: bring to life an unexpected nautical experience, through yachts built to combine alluring aesthetics with construction expertise and impeccable technology.

An audacious mindset that has, over time, surprised and captivated the yachting sector, transforming Azimut into a bold and recognizable benchmark, and laying the foundation for the birth of the largest megayacht builder in the world, the Azimut | Benetti Group.

The international and management-based standing of the company today, is deeply nourished by the solid and memorable family heritage that has distinguished it from the beginning. A historically pioneering vision that enables it to continue thriving day after day, through ingenious inventions and long-term goals that look to the future with Paolo's daughter, Giovanna Vitelli.

A SUSTAINABLE VISION TODAY, FOR TOMORROW

An avant-garde vision and a strong emotional appeal have shaped the history of Azimut as a leader in the field of nautical innovation as well as its commitment to the creation of a sustainable-oriented and attentive company culture today.

An ambitious and personal touch that has allowed Azimut to grow and evolve on both levels, embracing the challenge of a future nurtured by an eco-conscious approach to boat construction and by an authentic focus and responsibility on human well-being.

OUR ECO-YACHTING PHILOSOPHY

The Azimut I Benetti Group has made tangible investments to guide the Technical as well as the R&D departments toward the construction of yachts with a diminished environmental impact. Its main areas of intervention have focused on significantly lowering fuel consumption and CO2 emissions through the development of highly efficient hull designs, innovative propulsion systems and an extensive use of carbon fiber to decrease yacht weight.

A SAFE AND HEALTHY WORK ENVIRONMENT

The forerunning shipyard of Avigliana was the first of the company's Italian shipyards to obtain the ISO 45001 certification in 2011, attesting its rigorous abidance to all occupational health and safety requirements. Recognized as the most technologically-advanced shipyard in Europe, it has also led the nautical sector revolution in terms of being among the earliest adopters of the vacuum infusion process to drive resin into a laminate, avoiding styrene emissions and therefore guaranteeing its precious workers a healthier setting.

As of 2013, all the other Italian production sites have adapted to meet the necessary requirements to obtain the ISO 45001 certification.
